

The Collaborative presents:

# Stepping up and stepping out to meet our challenge

Our work to make co-production 'the way we do things around here' in Lambeth continues. Our Living Well Network is a growing network of people, services and organisations, that is rooted in Primary Care and it's communities, to ensure that people with mental health issues are recovering faster and being better supported to live their lives.

**A chance to come and explore, design and test with the Collaborative in order to help us to continue our work to grow a Living Well Network and move away from a system that is focused on dealing with crisis, to one that intervenes earlier, helps people really recover and enables people to live their lives in their communities.**

The Collaborative is a platform for partners across Lambeth to come to together and work to radically change the experiences of people with mental health challenges in Lambeth. It comprises of people who use services, carers, families, GPs, clinicians, commissioners and service providers.

**Who should attend:**  
People who use services, carers, GPs & Practice Nurses; District Nurses and Health Visitors, CMHT workers, people from the Voluntary sector and anyone with an interest in making things better
